Benefit :

ReefLifeElite^R G+CoralGreenUpTM contain the trace elements and multivitamins. Designed for the green coral directly. The elements in **ReefLifeElite^R G+CoralGreenUpTM** are related by their biological function and are associated with the production of specific color pigments (Yellow and Green) in the polyps. Also the **ReefLifeElite^R G+CoralGreenUpTM** contain the Chlorophyll A from phytoplankton as like in the ocean. For best results in displaying coral colors use **ReefLifeElite^R BioPelletsTM** as part of the boost.

Directions :

Shake well before using.

Add 1 drop per 25 gallons (100 liters) once a day. Adjust dosage accordingly thereafter. In heavily stocked reef aquariums, the dosage will likely need to be increased, however take care not to

Overfeed!

$\text{Width (cm)} \times \text{Length (cm)} \times \text{Height (cm)} / 1000 = \text{Volume (liters)}$
