12,000 liters

Barcode :

009989310001

Volume :

1.7 fl oz / 50 ml

Treat up to :

500 gallons / 2,000 liters

Packaging :

Green Glass Bottle

Benefits :

Plants can grow faster and healthier. Leading to more vibrant colors and stronger root systems.

Informations :

PlantLifeElite[®] Fe+tilizer[™] can provide many benefits for aquatic plants in an aquarium.

PlantLifeElite[®] Fe+tilizer[™] can supply essential nutrients to plants in a form that is readily available for uptake. This included as micronutrients like iron, magnesium, zinc and other. With the proper balance of nutrients, plants can grow faster and healthier, leading to more vibrant colors and stronger root systems. When plants are healthy and growing, they can outcompete algae for nutrients and light, reducing the likelihood of an algae bloom. As plants grow and take up nutrients, they can also remove excess nutrients from the water column, leading to better water quality and a more stable aquatic environment. It's important to note that not all liquid fertilizers are created equal, and some may be more suitable for certain types of plants or aquarium setups than others. It's also important to follow dosage instructions carefully and monitor plant growth and water quality to ensure that the fertilizer is having the desired effect.

PlantLifeElite[®] Fe+tilizer[™] is Iron and trace elements for aquatic plants contain no NO₃ and Po₄ It caused no algae. We designed the minerals used in growth according to the structure of the plants. When the plant fast growth, the nitrate and phosphate to be used quickly too. Also stop the algae growth when using our products, But if there is no fish, shrimp or any animals in the tank, we recommend using with **PlantLifeElite[®] FertilizerBase+[™]** to fertilize the replacement system. For best results, we recommend using with **PlantLifeElite[®] K+tilizer[™]** together.

Ingredients :

Deionized water, Mg 19%, Fe 24%, Mn 14%, Cu 1.5%, Zn 1.5%, B 0.6%, Mo 0.1%, Alanine 3%, Isoleucine 8.7%, Proline 5.7%, Tyrocine 5.1%

Contains no phosphates, nitrates, gluconates, lactates, or other sugars.

Directions :

Shake well before using.

For nano tank : Add one drop for every 1 gallon (3 liters) twice a week.

For normal tank : Add 5 ml for every 50 gallons (200 liters) once a week.

One dropper of the 50ml package is 0.1ml.

One dropper of the 100ml package is 0.1ml.

One capful of the 250ml package is 15ml.

One capful of the 300ml package is 15ml.

One capful of the 500ml package is 15ml.

One capful of the 1,000ml package is 15ml.

One capful of the 5 liters package is 20ml.

One capful of the 20 liters package is 50ml.

To Calculate :

How much does your tank need to fill?

Width (inch) x Length (inch) x Height (inch) / 2,560 = Volume (ml)

For example : 20" x 48" x 20" / 2,560 = 7.5 ml

Width (cm) x Length (cm) x Height (cm) / 40,000 = Volume (ml)

For example : 50 cm x 120 cm x 50 cm / 40,000 = 7.5 ml

Remark :

Keep out of reach of children.

In case of contact with eyes or hands rinse with plenty of water.

Not for human consumption fishes , shrimps and crabs.

For aquarium and pond use.
