680 fl oz
(20 liters)
Treat up to 5,000 gallons
(20,000 liters)

20,000 liters

Barcode :

009989220003

Volume :

1.7 fl oz / 50 ml

Treat up to :

13 gallons / 50 liters

Packaging :

Brown Glass Bottle

Benefits :

Adjusted the tap water to the water that has the same conditions as the Amazon River. Add essential minerals. Lowering the pH to slightly acidic and adjust the water color to look like in nature.

Informations :

Amazon water, typically known as "blackwater" or "Rio water," is water with certain characteristics that mimic the natural conditions found in the Amazon River basin and its tributaries. Using Amazon water in your aquarium can offer several benefits, especially if you're keeping fish and plants that originate from this region.

FreshwaterLifeElite^R AmazonWaterTM contains trace elements, vitamins, and extract of tea and peat moss. It replicates blackwater conditions by creating clear, "natural" Amazon-biotope conditions in the aquarium.

FreshwaterLifeElite^R AmazonWaterTM promotes fish activity levels and is an excellent conditioner for all soft-water fish

including discus, angelfish, tetras, killifish and arowana. It establishes similar water conditions to those found in Amazon-rivers, to important aquarium fishes and plants.

FreshwaterLifeElite^R AmazonWaterTM used to help simulate the onset of the rainy season for encouragement of fish spawning.

Provides humic substances (humic, fulvic and tannin acid), complex bio-organic molecules known to increase the availability of important nutrients (such as iron, calcium, magnesium, molybdenum, copper, manganese, zinc, cobalt, and nickel) to plants, potentially enhancing the effectiveness of plant nutrient solutions in aquaria.

Mimics Natural Habitat :

Many Amazonian fish species, such as tetras, cichlids, catfish, discus and arowana, are adapted to the soft, acidic, and often tea-colored waters of the Amazon basin. Using FreshwaterLifeElite^R AmazonWaterTM conditions in your aquarium closely replicates their natural habitat, which can promote better health, behavior, and breeding in these fish.

Stress Reduction :

FreshwaterLifeElite^R AmazonWaterTM parameters, which typically include low pH, low hardness, and tannin-stained water, can reduce stress in fish. This can be particularly beneficial during the acclimation process for new fish or when trying to encourage breeding behavior.

Plant Growth :

Some aquarium plants, such as Amazon swords (Echinodorus spp.), thrive in soft, acidic water conditions.

Using FreshwaterLifeElite^R AmazonWaterTM parameters can support healthy plant growth, which in turn contributes to water quality and the overall aesthetics of the aquarium.

Aesthetic Appeal :

The dark, tea-colored appearance of Amazon water can provide a unique and natural look to your aquarium, resembling the appearance of forested Amazonian streams and rivers.

Ingredients :

Deionized water, tea, peat moss, tannin acid.

Contains no phosphates, nitrates, salt, yeast, gluconates, lactates, or other sugars.

Directions :

Shake well before using.

Do not use with the GAC (activated carbon)

Add 20 ml per 5 gallons (20 liters) or

Add 10 drops per 0.25 gallons (1 liter) for first use.

Add 20 ml per 5 gallons (20 liters) for first use. or Add 20 ml per 5 gallons (20 liters) for first use. After that, add only the part where the water has changed. One dropper of the 50ml package is 0.1ml.

One dropper of the 100ml package is 0.1ml.

One capful of the 250ml package is 15ml.

One capful of the 300ml package is 15ml.

One capful of the 500ml package is 15ml.

One capful of the 1,000ml package is 15ml.

One capful of the 5 liters package is 20ml.

One capful of the 20 liters package is 50ml.

To Calculate :**How much does your tank need to fill?**

Width (inc) x Length (inc) x Height (inc) x 15.625 = Volume (ml)

For example : 20" x 48" x 20" x 15.625 = 300 ml

Width (cm) x Length (cm) x Height (cm) / 1,000 = Volume (liters)

For example : 50 cm x 120 cm x 50 cm / 1,000 = 300 ml

Remark :

Keep out of reach of children.

In case of contact with hands or eyes rinse with plenty of water.

Safe for human consumption fishes, shrimps and crabs.

For aquarium and pond use.

Recommend product boosting effective :**Why we recommend them?**

Although **FreshwaterLifeElite^R AmazonWaterTM** is rich in minerals and vitamins but it is from natural, it is not concentrated.

PetLifeElite^R C+VitaminCTM will accelerate the coloration of the fish by direct ingestion.

PetLifeElite^R C+VitaminCTM has a coating that can be mixed food, the vitamins will not dissolve.

If you need vitamins through the gum, we recommend **PetLifeElite^R MultiVitsTM** is easier to use.
