Can Mix Food 7kg

Barcode :

009989030244

Volume :

1.7 fl oz / 50 ml

Treat up to :

12,500 gallons / 50,000 liters

Packaging :

White Glass Bottle

Benefits :

Helping fish to have disease resistance, and heal the disease by itself. Help the fish to need more food.

Informations :

PetLifeElite[®] G+GarlicExtract[™] is extracted from garlic 100%. Suitable for fish get sick and finicky fish (i.e. angelfishes, butterflyfishes, discus etc.) In garlic was a compound called Allicin, it is used to stimulate the fish's appetite. (For human, it can stimulate salivation) For fish get sick garlic helps blood circulation and treatment. When the fish eat, it will the strength to the therapy itself. We recommend the combination with **PetLifeElite[®] C+VitaminC[™]** in the treatment of fish. **Appetite Stimulation : PetLifeElite[®] G+GarlicExtract[™]** to enhance the palatability of fish food. Adding garlic to the diet can make the food more attractive to fish, encouraging even finicky eaters to consume their meals. This is particularly useful when transitioning fish to new types of food or when trying to entice fish that may be reluctant to eat.

Immune System Support : PetLifeElite[®] G+GarlicExtract[™] to have natural antibiotic and antiparasitic properties feeding garlic to fish can help support their immune systems, making them more resistant to diseases and parasites.

Worm Expulsion : PetLifeElite[®] G+GarlicExtract[™] is by some to have properties that may help in the expulsion of internal parasites, particularly intestinal worms, from fish.

General Health Benefits : The compounds found in garlic, including allicin, are considered to have potential health benefits. These may include antioxidant properties and support for overall health in fish.

Ingredients :

Garlic Extract 100%

Contains no sodium benzoate, gluconates, lactates, or other sugars.

Directions :

Shake well before using.

For fish get sick : Add 1-2 drops per 1 teaspoon of food. Allow at least 5 minutes to elapse before feeding, enabling adequate time for the product to become thoroughly absorbed by the food.

For finicky fish : Add 1 drop per 25 gallons (100 liters) before feeding. Observe water quality carefully at all times, making adjustments as needed. One dropper of the 50ml package is 0.1ml.

One dropper of the 100ml package is 0.1ml.

One capful of the 250ml package is 15ml.

One capful of the 300ml package is 15ml.

One capful of the 500ml package is 15ml.

One capful of the 1,000ml package is 15ml.

One capful of the 5 liters package is 20ml.

One capful of the 20 liters package is 50ml.

To Calculate :

How much does your tank need to fill?

Width (inch) x Length (inch) x Height (inch) x 15.625 / 100,000 = Volume (drops)

For example

20" x 48" x 20" x 15.625 / 100,000 = 3 drops

Width (cm) x Length (cm) x Height (cm) / 100,000 = Volume (drops)

For example

50 cm x 120 cm x 50 cm / 100,000 = 3 drops

Remark :

Keep out of reach of children.

In case of contact with eyes or hands rinse with plenty of water.

Safe for human consumption fishes , shrimps and crabs.

For aquarium and pond use.
