Barcode :

009989030169

Volume :

1.7 fl oz / 50 ml

Treat up to :

12,500 gallons / 50,000 liters

Packaging :

White Glass Bottle

Benefits :

The fish will become more colorful within 1 month, wounded or sick fish will heal faster.

Informations :

PetLifeElite[®] C+VitaminC[™] has been shown to enhance the immune system of fishes and invertebrates, as well as facilitate the metabolism of fatty acids, and stimulate the production of connective tissue, such as that damaged by head and lateral line erosion, coral propagation, bacterial and parasitic infestations, and wounds.

PetLifeElite[®] C+VitaminC[™] helps correct vitamin C deficiencies in ornamental marine organisms. Can be used as a daily supplement or when treating damaged, sick fishes and invertebrates, although not a medication. Particularly useful when fragmenting and propagating hard and soft corals. **Immune System Support** : **PetLifeElite[®] C+VitaminC[™]** is known to support the immune system of fish, making them more resistant to diseases and infections.

Antioxidant Properties : **PetLifeElite[®] C+VitaminC[™]** acts as an antioxidant in fish, helping to protect their cells from damage caused by free radicals.

Collagen Production : **PetLifeElite[®] C+VitaminC[™]** is involved in collagen production, which is essential for the growth and maintenance of fish tissues, including skin, scales, and connective tissues.

Wound Healing : **PetLifeElite[®] C+VitaminC[™]** can aid in wound healing and tissue repair in fish.

Stress Reduction : It may help reduce stress in fish, especially during transportation or other stressful events.

Ingredients :

Palmitate 500 I.U., Pyridoxine HCL 0.5 mg, Cholecalciferol 100 I.U., Cyanocobalamin 5 mcg, Thiamine HCL 5mg, D-Panthenol 5mg, Riboflavin-5 1.5 mg, L-Lysine Hydrochloride 50mg.

Directions :

Shake well before using.

For general use and to aid fishes : that are ill, damaged or invertebrates that have been recently fragmented, add 1 drop per 25 gallons (100 liters) aquarium water daily. Observe reaction of aquarium residents and adjust dosage accordingly. Do not overdose!!!

For expert use : add 1 drop into the food before feeding. **Do not overdose !!!!!**

Our experiments have shown that adding 100 times too much does not have any harmful effects to living things in the water but it will make the water cloudy for several days. We are recommended to change the water if you experience these symptoms.

To Calculate :

How much does your tank need to fill?

Width (inch) x Length (inch) x Height (inch) x 15.625 / 100,000 = Volume (drops)

For example

20" x 48" x 20" x 15.625 / 100,000 = 3 drops

Width (cm) x Length (cm) x Height (cm) / 100,000 = Volume (drops)

For example

50 cm x 120 cm x 50 cm / 100,000 = 3 drops

Remark :

Keep out of reach of children.

In case of contact with eyes or hands rinse with plenty of water.

Safe for human consumption fishes , shrimps and crabs.

For aquarium and pond use.
