10,000 liters

Benefit :

ReefLifeElite[®] Iodide+[™] is associated with the widest range of effects. Iodine prevents goitre as an important component of the thyroid hormone. It also is essential for the hardening of the chitinous shell of crustaceans. Corallinaceous red algae deposit iodine in surface structures and gorgonias deposit it in the axial skeleton. Experiments clearly show that **ReefLifeElite[®] Iodide+[™]** improves the adaptation to light and the colouring of anthozoa, especially of hard corals. Due to its unstable nature in solution, iodine should be added to a marine aquarium on a regular basis. **ReefLifeElite[®] Iodide+[™]** contains iodine in its most effective form, as elementary I₂. **ReefLifeElite[®] Iodide+[™]** provides bio-available iodine to reef inhabitants. Although present in salt mixes, iodine is rapidly used up in the system, and removed through protein skimming, ozone and filtration. **ReefLifeElite[®] Iodide+[™]** needed for proper growth and health of invertebrates and algae.

Directions :

Shake well before using.

Add 20 ml (1 capful) per 200 gallons (800 liters) once a week.

To Calculate :

Width (inc) x Length (inc) x Height (inc) x 0.015625 = Volume (liters)

For example

20" x 48" x 20" x 0.015625 = 300 liters

Width (cm) x Length (cm) x Height (cm) / 1000 = Volume (liters)

For example

50 cm x 120 cm x 50 cm / 1000 = 300 liters

Ingredients :

Deionized water, Potassium 45% , Iodide 45% and Other.

Contains no phosphates, nitrates, gluconates, lactates, or other sugars.

Remark :

Keep out of reach of children.

Not for human consumption.

For aquarium use only.

In case of contact with hands

or eyes rinse with plenty of

water.
