10,000 liters

Benefit :

ReefLifeElite^R Strontium+TM is important for accelerating coral and calcareous algae growth. Natural sea water contains approx 7-9 ppm. strontium. This strontium is associated (â€•chelatedâ€•) with sulphate. Since the growth of corals and calcareous algae goes hand in hand with strontium and calcium depletion, depletion of calcium (which is very easily measurable) usually means depletion of strontium as well.

ReefLifeElite^R Strontium+TM should be added to all marine aquariums on a regular basis as most corals absorb strontium faster than other elements during their normal metabolic process. Corals will open more and stay attached to their skeletons better, with regular use. For best results use **ReefLifeElite^R CalciumLTM** or **ReefLifeElite^R CalciumPTM** or **ReefLifeElite^R Kalkwasser+TM** or **ReefLifeElite^R Ion+ ATM** and **ReefLifeElite^R Ion- BTM** first. Use of **ReefLifeElite^R PerfectTM** and **ReefLifeElite^R ReefVitsTM** are beneficial, as well.

Directions :

Shake well before using.

Add 20 ml (1 capful) per 200 gallons (800 liters) once a week.

To Calculate :

Width (inc) x Length (inc) x Height (inc) x 0.015625 = Volume (liters)

For example

20" x 48" x 20" x 0.015265 = 300 liters

Width (cm) x Length (cm) x Height (cm) / 1000 = Volume (liters)

For example

50 cm x 120 cm x 50 cm / 1000 = 300 liters

Ingredients :

Deionized water, Strontium 45% , Molybdenum 10% and Other.

Contains no phosphates, nitrates, gluconates, lactates, or other sugars.

Remark :

Keep out of reach of children.

Not for human consumption.

For aquarium use only.

In case of contact with hands or eyes rinse with plenty of water.
