PondJet Eco is a floating water feature that can be flexibly installed in bodies of water with any ground condition. It has an impressively high energy efficiency. The dynamic function allows you to set different fountain heights. Its demand-oriented power consumption enables a stunning water display of up to 3 m in height and width. You can design your own customised water feature, thanks to the G-1 thread of the multi-function nozzle, on which additional fountain attachments can be installed. Another connection option for an underwater transformer to install lighting sets is also possible.

Key Features Fountain pump that can be installed quickly and easily, thanks to the fountain aggregate with aeration effect New, low energy consumption motor technology offers significant power savings Switchable dynamic program for impressive fountains **Characteristic ENVIRONMENTAL FUNCTION CONTROL:** This is EFC, by OASE: no problems caused by the pump being blocked or running dry **READY FOR ANY EVENT:** Also perfect for temporary use, e.g. at events **EXPANDABLE:** Enjoy your JumpingJet Rainbow Star with the additional features of the expansion kit **FLOATING WATER FEATURE:** Flexible installation in water no matter the soil conditions **MADE IN GERMANY:** Precise and reliable engineering skills at a particularly high level of quality **COMPLETE SET READY TO CONNECT:** Includes pump, floating body and multi-function nozzle **UP TO 50 PERCENT LESS:** This pump requires much less energy than its predecessor model

A floating fountain is ideal for those who want to add a special effect to an existing pond without much installation (such as special events) or for ponds that vary in water level. The Pond Jet floating fountain is ready to connect and can be installed in minutes. Additional nozzle patterns can be installed (must be purchased separately). **Easy to Install and Easy to Adjust** The best feature of the pond jet is its ability to be deployed in a number of applications that may have drastically different conditions. With no need to cut into liner, or place pump on the bottom of a pond, the PondJet truly is a dream come true for those who have either a large or small pond and want an installation that is as simple as possible. It is as simple as removing the PondJet from its packaging, assembling the few parts, run power to the pump, and place in the water of your pond, truly an item that will add life to your pond and will take no time to set up.

ALL IN ONE SOLUTION

THE PONDJET FLOATING FOUNTAIN IS READY TO BE PLACED IN THE WATER AS SOON AS YOU TAKE IT OUT OF THE BOX WITH MINIMAL ASSEMBLY. THE PONDJET COMES WITH EVERYTHING YOU NEED IN BOX THAT MEANS YOU HAVE THE PUMP, FLOAT, AND NOZZLE; NO NEED FOR ANY OTHER COMPONENTS TO ADD FASCINATING MOVING WATER TO YOUR POND AT HOME. IT TRULY IS A GREAT SOLUTION FOR THOSE THAT WANT A FOUNTAIN IN THEIR POND, BUT DO NOT WISH TO DO MODIFICATIONS TO THEIR EXISTING POND SET UP. (IMAGE SHOWN WITH OPTIONAL LIGHTING SET)

ADJUSTMENTS MADE EASY

THE PONDJET FLOATING FOUNTAIN HAS BEEN DESIGNED WITH EASE OF USE IN MIND, THE IMAGE TO THE RIGHT SHOWS THE PONDJET WITH ONE OF OUR FROTHY NOZZLES ATTACHED, WHICH WILL ADJUST THE FOUNTAIN PATTERN TO HAVE A BEAUTIFUL FOAMING EFFECT. THE INSTALLATION TIME ON A NOZZLE IS ALMOST NON-EXISTENT, SIMPLY UNSCREW EXISTING FOUNTAIN NOZZLE AND SCREW ON THE 1' NOZZLE OF YOUR CHOICE AND YOU ARE DONE. MAKE YOUR FOUNTAIN AS INDIVIDUAL AS YOU BY USING ANY 1' NOZZLE PATTERN!

ADD THE BEAUTY OF LIGHT TO YOUR POND (NOT INCLUDED LAMP)

THE PONDJET FLOATING FOUNTAIN CAN BE TURNED INTO YOUR POND'S CENTERPIECE BY ADDING THE [PONDJET LIGHTING SYSTEM](#). WITH SIMPLE ASSEMBLY YOUR POND WILL HAVE NOT ONLY THE BEAUTY OF MOVING WATER, BUT WILL DRAW YOUR GUESTS IN WITH THE WELCOMING GLOW OF ILLUMINATED WATER!
