**Benefits :**

Removal of phosphate and nitrate 5ppm per dose within 30 minutes. The algae will be gone within 7 days.

**Informations :**

**PetLifeElite<sup>®</sup> PhosTrateGone<sup>™</sup>** is not "Carbon Source System" like as other product in the market. The carbon source systems can reduce nitrate and phosphate in the freshwater and saltwater, you can use **PetLifeElite<sup>®</sup> BioPellets<sup>™</sup>** which is carbon source as same. But **PetLifeElite<sup>®</sup> PhosTrateGone<sup>™</sup>** can use in freshwater and saltwater. It is solution for converts PO<sub>4</sub> and NO<sub>3</sub> to be CaPo<sub>4</sub> and CaCo<sub>3</sub> insoluble. And was eliminated by micron-filter. So we recommend using with **PetLifeElite<sup>®</sup> FilterSock NL<sup>™</sup>** 50-100 micron for removal from the tank. **PetLifeElite<sup>®</sup> PhosTrateGone<sup>™</sup>** is safe for fishes, plants, corals and human also. It can use in the swimming pool for remove algae. Without the use of chlorine or any chemical.

**Ingredients :**

Lanthanum Chloride 78% and Complexed Bisulfite.

Contains no phosphates, nitrates, gluconates, lactates, or other sugars.

**Directions :**

**Shake well before using.**

**Add 1 drop per 25 gallons (100 liters) once a day. Adjust dosage accordingly thereafter. In heavily algae, the dosage will likely need to be increased, however take care not to overdose 5 times per day.**

**To Calculate :**

**How much does your tank need to fill?**

**Width (inc) x Length (inc) x Height (inc) x 15.625 / 100,000 = Volume (drops)**

**For example**

**20" x 48" x 20" x 15.625 / 100,000 = 3 drops**

**Width (cm) x Length (cm) x Height (cm) / 100,000 = Volume (drops)**

**For example**

**50 cm x 120 cm x 50 cm / 100,000 = 3 drops**

**Remark :**

Keep out of reach of children.

Safe for human consumption fishes, shrimps and crabs.

Not classified as hazardous according to criteria of NOHSC.

For aquarium, pond and swimming pool use.

In case of contact with eyes rinse with plenty of water.
