1998: Airtac set up own manufacturing base in China (GuangZhou) and also other two branch offices in east and north of China. At the same time, Airtac also cooperate with its Malaysia dealer to set up branch office in Malaysia, Kuala Lumpur, to expand its South-Eastern Asia market.

1999: Airtac set up second and third branch offices in Malaysia, Penang and Johorbahru.

2000: Airtac joint venture with its Thailand agent to set up the branch office in Thailand, Bangkok, to expand the Thailand's market.

2002: Airtac established second manufacturing base in Ningbo China. In the same time follow the strategy of joint venture policy, AirTac start to cooperate with their China distributors to build up its directly branch offices in China. Till the end of 2002, Airtac has already establish 30 directly branch offices in the whole China area.

2002: Airtac established its Hong Kong branch office to deal with its overseas business.

2003: The Ningbo manufacturing base has been finished its first period construction and start to produce cylinders and F.R.L. units products to meet China market demand. Airtac established its Tehran branch office in Iran to handle the Middle-Eastern

Asia market.

2004: More than 1,200 employees working in Airtac Ningbo manufacturing base and 400 employees working in Airtac Guangzhou manufacturing base, Airtac starts to develop numerous of new products and special request from customers ,for extending product range and meet the different industries' demand.

R&D

In order to enhance the R&D and production strength, Airtac has invested lots of expense to import best machineries and equipments from Germany, Japan, and Taiwan. These machines include Automatic wire welding machinery, Die-Casting machinery, CNC machinery, product surface treatment equipment and so on. On top of that, Airtac has also invested lots of time and cost at the internal technical training program, to ensure our productivity and quality. Besides, Airtac own a fast developing and advance R&D team, $\tilde{A}^-\hat{A}_{\dot{c}}\hat{A}^1/2\tilde{A}^-\hat{A}_{\dot{c}}\hat{A}^1/2$ with the world-class design ability and technology, believe that can reach most of our customer's demand in the world.
