Customer service is the foundation of every great company.

At Aqua Ultraviolet we strive to make technology simple for all of our customers, distributors, dealers and consumers alike. Our 800 number is actually answered live during business hours (M-F 8:00-4:30 PST).

We offer tools that show our customers the details of installation and maintenance. We provide a printed instructional manual with each of our products. Our video library is available online to walk you through the steps. A webcam is utilized for live demonstrations via our Technical Support Department.

Since 1975, Aqua Ultraviolet has designed solutions that provide cutting edge technology and efficiency to our users. We proudly offer innovative new products every year. As if having the best products wasn't enough Aqua Ultraviolet also provides superior customer service. Simply call our 800 number to reach a knowledgeable industry professional that will help you choose the correct products and advise on installation methods. We are the industry leader for a reason.
