CT Light Technology Co., Ltd. is a high-tech company focusing on development, production and sales of LED lighting products. Our main products include high-end outdoor LED lighting products, LED glow light, and LED aquarium light. CT Lighting Technology is located in YongFeng Shuitian Industrial Park of ShiYan Town of Shenzhen with an area of 2000m2. We have around 100 employees for product research/ development, production, quality control, domestic sales and international sales, and for after sales service, 60% of whom acquired colleague degree or above.

We have automatic LED Package machines, solid crystal machine, automatic welding machine, SMT machine, and we have serial testing instruments including high-low temperature chamber. Automatic machines and test instruments ensures high quality and high accuracy products.

We started the development and production since 6 years ago with an experienced team, and some of our products obtained national patent.

We insist to invest not less than 8% of annual sales for product research and development for the purpose to have leading products in global market.

We have acquired and we comply strictly with ISO9000 AND ohsas18000 to provide our customer with safe and qualified products.

We have accumulated plenty of royal customers with our product of high cost-efficiency, high quality and excellent service after sale. Our products are in application in more than 30 countries including China, USA, Finland, Sweden, Italy, French, German, Span, Russia, Singapore, Taiwan, and so on.
