zzz>>>>> Kent Marine

KENT Marine was established by aquatic hobbyists who saw a need for products that aid the user in creating the most natural enclosed marine and freshwater environment possible. From vitamin and mineral supplements to nutritional products and filter media, KENT Marine set the benchmark and was one of the first in the aquatic industry to provide these unique solutions. For the past 15 years, we have been committed to providing effective ways to keep beautiful, healthy aquariums. Through continuous research, testing, and development, new products were brought into the KENT Marine family. Natural Sea Salt, Pro-Scrapers, Reverse Osmosis Filtration and others quickly set the quality standard and became the true hobbyist choice. So enjoy your marine and freshwater aquarium and trust that KENT Marine will be there to help you properly care for your aquatic habitat.
