EHEIM

Max 600 liters

Guarantee 3 year send factory Advantages The heating element EHEIM thermopreset differs from EHEIM thermocontrol by the additional plastic protection, which ensures a high mechanical stability. It is preset to a constant temperature of 25 Â°C and is particularly suitable for smaller aquariums. The EHEIM thermocontrol and thermocontrol-e control adjustable heaters, on the other hand, can be precisely controlled and used in both small and very large aquariums. As usual from EHEIM, all heaters are equipped with LED lights to control the heating function and with dry-running protection. **With electronics for a comfortable climate EHEIM thermocontrol-e - the electronically controlled version of the precision aquarium control heater thermocontrol. The legendary heating element with all the advantages. Even more accurate and convenient. With guarantee for highest quality and safety. With the EHEIM thermocontrol-e heating element your fish get the right temperature even more precisely - in every aquarium.**

The obvious ideas are often the best. This also applies to the aquarium heating element. It is simply hung in the water and heats it up. The principle is the same as it was decades ago. But in the meantime the EHEIM controller heater has become an ultra-modern thermal device. The temperature can be set precisely and is measured even more precisely and kept more constant by the electronics. The coating made of special laboratory glass increases the heating surface, serves as a heat shield and ensures even heat emission. And whether you want to heat a 20 or 1200 litres aquarium - you can choose from 10 sizes.

Advantages of the EHEIM control heater thermocontrol-e Precise temperature adjustment from 20 to 32 Â°C No readjustment necessary Control accuracy Â± 0.5 Â°C The heat is kept constant Control lamp indicates the heating function (red: heating up; green: temperature reached) Fully submersible (waterproof) With dry-running protection (Thermo Safety Control) Glass coating increases the heating surface and ensures optimum, even heat output Convenient cable length approx. 170 cm

Including double suction holder 10 sizes for
aquariums from 20 to 1200 litres Suitable for fresh
and marine water Highest safety and reliability - 3
years warranty Made in Germany **EHEIM**
thermocontrol e 250

EAN	4011708004906
Article No.	3638010
UPC	(-)
Min. temperature	20.00° C
Max. temperature	32.00° C
Performance at 50 Hz	250.00 watt
For aquariums of about.	400.00 l
For aquariums up to approx.	600.00 l
Height	442.00 mm
Dimensions in	36.00 mm

Number pieces in packaging:1Number pieces in box:12
