20,000 liters

Benefits :

Rapid reduction of organic carbon, ammonia, and nitrite. Reduction of organic compounds into nutrients that encourage the growth of photosynthetic organisms Greatly-reduced hydrogen sulfide production. Increase in dissolved oxygen concentration.

We prepared our product with high grade quality ingredients under the supervision of our experts ensures the supreme quality of product. Our product is ideal to increase oxygen in the aquarium or pond.

PetLifeElite^R OxygenPTM can reduction toxic of organic carbon, ammonia, and nitrite.

PetLifeElite^R OxygenPTM can reduction of organic compounds into nutrients that encourage the growth of photosynthetic organisms.

PetLifeElite^R OxygenPTM can greatly-reduced hydrogen sulfide production.

Increase in DOC (dissolved oxygen concentration)

Increased water clarity.

Informations :

PetLifeElite^R OxygenPTM is a specially formulated odorless compound designed to produce oxygen in any pond environment.

Furthermore, **PetLifeElite^R OxygenPTM** comes in a unique powder form for maximum efficiency and easy application.

These powders are designed to slowly dissolve over a 6 hour period so as to continuously synthesize oxygen in the system. Proper levels of oxygen can help increase a microorganisms efficiency in digesting sludge in pond especially during application of probiotic bacteria.

PetLifeElite^R OxygenPTM can also help to eliminate toxic gases produced as a result of excessive accretion of sludge in the pond environment. ($H_2S + H_2O_2 > S + 2H_2O$) This results in a reduction of toxicity from **PetLifeElite^R OxygenPTM** therefore removing malodor from ecosystem as well as increasing aquatic animals survival rates.

Freshwater & Saltwater suitable.

Ingredients :

Oxygen Powder 100% Contains no phosphates, nitrates, gluconates, lactates, or other sugars.

Directions :

For Treatment : Add 1 spoon (inside) per 1,000 liters.

For Maintainance : Add 1 spoon (included) per 5,000 liters.

For Travel's Fish : Add a little bit into the bag for traveling 24 hours.

To Calculate :

How much does your tank need to add?

Width (inch) x Length (inch) x Height (inch) of tank / 64,000 = (minimum) Spoon

For example : 40" x 40" x 40" / 64,000 = minimum 1 Spoon

Width (cm) x Length (cm) x Height (cm) of tank / 1,000,000 = (minimum) Spoon

For example : 100 cm x 100 cm x 100 cm / 1,000,000 = minimum 1 Spoon

Remark :

Keep out of reach of children.

In case of contact with hands or eyes rinse with plenty of water.

Safe for human consumption fishes , shrimps and crabs.

For aquarium and pond use.
