Barcode 4011708201435 Guarantee 2 year send factory With EHEIM LiBERTY you have an **uncomplicated hang-on filter, which you can use anywhere immediately.** LiBERTY is simply hanged on the top of the aquarium glass. With its adjustable inlet pipe, you determine the its depth into the water and Â Â therefore the flow rate in the aquarium. The filtered water flows silently over water slides back into the tank. Thus perfect water circulation is created. The pump output can be easily regulated via the red control knob. There are 3 models for aquariums up to Â 200 l. All come complete with filter media and ready to start. **Benefits of hang-on filter EHEIM LiBERTY** Compact filter, is simply hanged on the top of the aquarium glassÂ (Some starter sets have a Â cut-out for in the hood to fit the filter) Ideal for beginners, but also for professionals and breeders (suitable for breeder*, goldfish and quarantine tanks) Completely equipped with filter media and immediately ready to use Practical, replaceable filter cartridges 3 models for aquariums up to 75, 130 und 200 l. **Uncomplicated technology â€“ easy to use** Adjustable inlet pipe for various immersion depths and thus regulation of the water flow in the aquarium Water slides ensure silent Â water flow into the filtered aquarium Pump output is regulated by the control knob (power regulator) Multifunctional components The lid of the filter is designed as a carrying tray, so that the used Â Â cartridges can be carried away without spillage. The pump impeller can be easily removed just by using the inlet pipe with the red control knob. The inlet pipe with the red control knob is simply clicked into the filter. Replaceable filter cartridges come complete with filter media. **EHEIM LiBERTY 130**
